## overview

---

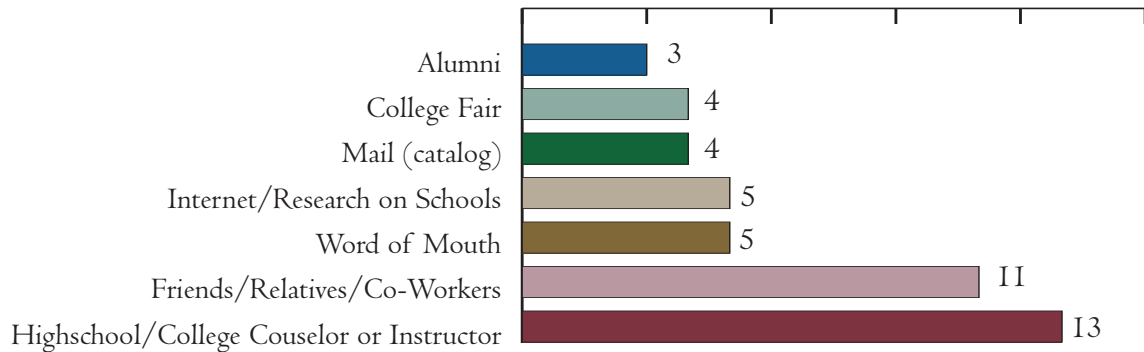

The current CVA Website has been in use for several years. A decision was made to redesign the site. To help create a more efficient site, students, faculty and staff were surveyed about what they think about the current site and what they'd like to see on the future site.

## methodology

Printed surveys were distributed to all CVA students, faculty, and staff in April 2003. The response rate was greater than 25% with 51 students and 17 faculty/staff responding to the survey.

## IF YES, HOW OFTEN?

### *Other Comments:*

At least every time I need to research.

Only when looking at the library or calendar.

To check assignment handouts in some classes.

I use it to get to my Cultural Anthropology homepage.

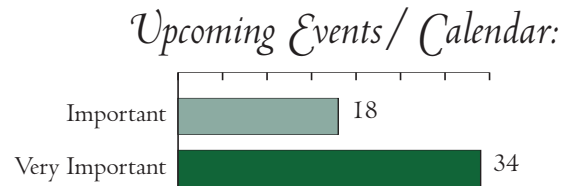

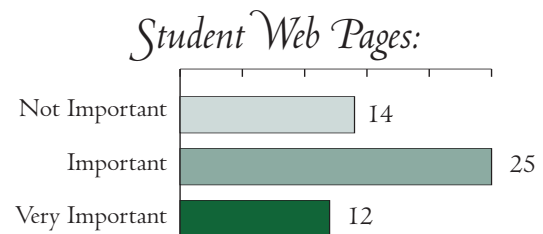

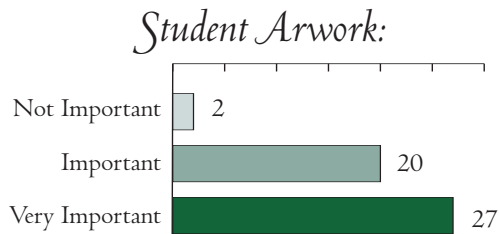

Whenever I do research for academic or library resources.

Semi-often, i.e. once or twice a month, mainly library services.

Whenever I'm in the library.

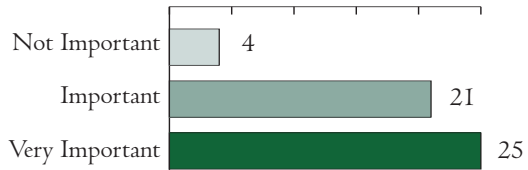

Rarely, for classes.

Would have to see it in context.

I couldn't tell where it is on the current site.

It's tiny.
